

PRISMA 2020 Checklist

Checklist status: draft, pending final manuscript page/section locations.

This file is a filled working checklist for the review package. It paraphrases PRISMA 2020 reporting topics and maps them to the current manuscript/repository locations. The official PRISMA 2020 checklist is available from the PRISMA statement website: <https://www.prisma-statement.org/prisma-2020-checklist>

Item - Reporting topic: Location

Title - Identify the report as a systematic review: Title

Abstract - Structured summary of objectives, methods, results, and limitations: Abstract

Rationale - Explain why the review is needed: Section 1

Objectives - State review questions: Section 3.1; protocol.md

Eligibility criteria - Specify inclusion and exclusion criteria: Section 3.3; protocol.md

Information sources - List databases, registers, and dates searched: Section 3.2; search/query_log.csv

Search strategy - Provide complete search strings: Appendix A; search/query_log.csv

Selection process - Explain screening process and reviewer roles: Section 3.4; screening/screening_sheet.csv

Data collection process - Explain extraction process and reviewer roles: Section 3.6; extraction/extraction_matrix.csv

Data items - Define all extracted fields: Section 3.6; extraction/extraction_matrix.csv

Study quality - Define quality/risk-of-bias assessment: Section 3.5; quality/qa_rubric.md

Effect measures - Explain why meta-analysis effect measures are not applicable: Section 3.7

Synthesis methods - Describe narrative synthesis procedure: Sections 3.7 and 5

Reporting bias - Discuss reporting bias and missing evidence: Section 8

Certainty - Explain how QA scores affect confidence: Section 3.5

Study selection results - Report flow counts and exclusions: Figure 1; extraction/search_log.csv

Study characteristics - Present per-study characteristics: Appendix B; extraction/extraction_matrix.csv

Quality results - Present quality scores per study: Appendix B

Individual study results - Present extracted evidence per study: Appendix B

Synthesis results - Present cluster and RQ-level findings: Sections 4-6

Reporting bias results - Present reporting-bias observations: Section 8

Certainty results - Present confidence limits from QA: Section 8

Discussion - Interpret findings, limitations, and implications: Section 8

Registration/protocol - Provide registration or protocol location: protocol.md; OSF/anonymous mirror pending

Support - Describe funding or support: Manuscript funding statement pending

Competing interests - Describe competing interests: Manuscript declaration pending

Availability - State where data, code, and materials are available: Repository and anonymized mirror pending
